

Novant Health Highpoint Medical Office Building

Location: Highpoint, North Carolina
Principal In Charge: John M. Beyer, AIA, NCARB
Contact: Pete Downey, Project Manager
336.718.5952
Square Feet: 6,490
Cost: \$1,231,250
Completion: October 2015

This one-story Medical Office Building is designed to support a Family Practice Clinic and an Orthopedic Clinic. The unique design combines shared core spaces, including the entrance, lobby, business office, supply, soiled holding, and breakroom. The result is a highly efficient design within a smaller, 6,490 SF building. The design also utilizes Lean design concepts in areas such as the nurse station and lab.
